Flutter Developer / Mobile App Developer

Description
We are seeking a skilled and passionate Flutter Developer to join our team. As a Flutter Developer, you will be responsible for designing, developing, and maintaining high-quality mobile applications using the Flutter framework. You will work closely with our cross-functional team to deliver innovative solutions that meet our clients' needs

Responsibilities

- Collaborate with stakeholders to gather requirements and understand project objectives.
- Design, develop, and implement robust and scalable mobile applications using the Flutter framework.
- Utilize object-oriented programming (OOP) principles to write clean, reusable, and maintainable code.
- Implement the MVVM (Model-View-ViewModel) architectural pattern or other OOP based Architectural Patterns to create efficient and modular code structures.
- Work closely with UI/UX designers to ensure the best user experience and visual appeal of the applications.
- Integrate RESTful APIs and third-party services into the application architecture.
- Conduct thorough testing and debugging of applications to ensure quality and reliability.
- Optimize application performance and responsiveness by identifying and addressing bottlenecks.
- Collaborate with backend developers to define and implement APIs for seamless integration.
- Stay up-to-date with the latest Flutter updates, trends, and best practices, and share knowledge with the team.
- Participate in code reviews and provide constructive feedback to ensure code quality.
- Continuously improve development processes and suggest enhancements to increase productivity.
